PROJECTS

What I'm Craving

A website that allows you to choose between different categories of food and outputs both a recipe for that food category as well as a local restaurant that serves food in that category. Created using HTML, CSS, Bootstrap, and Javascript.

<https://kreid333.github.io/project-1/>

Coding Quiz

A short, timed coding quiz that saves your highcore after completion. Created using HTML, CSS, Bootstrap, and Javascript.

<https://kreid333.github.io/coding-quiz-challenge/>

Weather Dashboard

A weather application that displays current weather and a 5-day forecast for any city in the world. Created using HTML, CSS, Bootstrap, and Javascript.
